

## Deployment Cycle Support

The Montana National Guard Yellow Ribbon Reintegration Program provides information, services, and referrals to service members of all military branches, families and significant others throughout the entire deployment cycle.

In January of 2009 the MTNG implemented the YRRP based on the Department of Defense mandate and Public Law 110-181 (Sec 582). This law mandates all National Guard members to go through the Pre-Deployment and Post-Deployment Yellow Ribbon Events. Family members that provide personal support to deployed service members are strongly encouraged to attend the events.

The YRRP works hand-in-hand with a variety of state and federal organizations to ensure service members and their families receive deployment information and the benefits available to assist in deployment and reintegration.

## JOINT SERVICES SUPPORT

The Montana National Guard Yellow Ribbon Reintegration Program not only provides support to all Montana National Guard military families, but also extends an open invitation to all branches of the military in order to gain access to resources and information from Montana and Federal programs and services.

The state of Montana is not only home to the Montana Army and Air National Guard, but also to the Army Reserves, Navy Reserves and Marine Reserves. Deployments are a challenge to any military family, so in order to help reduce the strain other military components' families are welcome to attend all MTNG YRRP events based on availability and registration.

The information and resources provided at the YRRP events are relevant to all branches, family life and deployment experiences.

**\*DISCLAIMER OF ENDORSEMENT:**  
The Yellow Ribbon Reintegration Program strives to provide information and resources to its attendees. Reference herein to any specific commercial products, process, entity, or service does not constitute or imply its endorsement, recommendation, or favoring by the United States Government or Montana National Guard.
